OUR COMMENT TO YOUR PRIVACY

St. Mary's Hospital understands that medical information about you and your health is personal. We are committed to protecting medical information about you. We create a record of the care and services you receive at St. Mary's Hospital. We need this record to provide you with quality care and to comply with certain legal requirements. This notice applies to all of the records of your care generated by St. Mary's Hospital, whether made by St. Mary's Hospital personnel or your personal doctor. Your personal doctor may have different policies or notices regarding the doctor's use and disclosure of your medical information created in the doctor's office or clinic.

This notice will tell you about the ways in which we may use and disclose medical information about you. We also describe your rights and certain obligations we have regarding the use and disclosure of medical information.

St. Mary's Hospital is required by law to:

- make sure that medical information that identifies you is kept private;
- give you this notice of our legal duties and privacy practices with respect to medical information about you; and
- follow the terms of the notice that is currently in effect.

WHO WILL FOLLOW THIS NOTICE.

This notice describes St. Mary's Hospital practices and that of:

- Any health care professional authorized to enter information into your hospital chart.
- All departments and units of St. Mary's Hospital.
- Any member of a volunteer group we allow to help you while you are in St. Mary's Hospital.

- All employees, staff, trainees, students and other St. Mary's Hospital personnel.

HOW WE MAY USE AND DISCLOSE MEDICAL INFORMATION ABOUT YOU.

The following categories describe different ways that we use and disclose medical information. For each category of uses or disclosures we will explain what we mean and try to give some examples. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one of the categories.

For Treatment. St. Mary's Hospital may use medical information about you to provide you with medical treatment or services. We may disclose medical information about you to doctors, nurses, technicians, medical students, or other hospital personnel who are involved in taking care of you at the hospital. For example, a doctor treating you for a broken leg may need to know if you have diabetes because diabetes may slow the healing process. In addition, the doctor may need to tell the dietitian if you have diabetes so that we can arrange for appropriate meals. Different departments of the hospital also may share medical information about you in order to coordinate the different things you need, such as prescriptions, lab work and x-rays. We also may disclose medical information about you to people outside the hospital who may be involved in your medical care after you leave the hospital, such as family members or others we use to provide services that are part of your care.

For Payment. St. Mary's Hospital may use and disclose medical information about you so that the treatment and services you receive at the hospital may be billed to and payment may be collected from you, an insurance company or a third party. For example, we may

need to give your insurance company information about surgery you received at the hospital so your health plan will pay us or reimburse you for the surgery. We may also tell your health plan about a treatment you are going to receive to obtain prior approval or to determine whether your plan will cover the treatment.

For Health Care Operations. St. Mary's Hospital may use and disclose medical information about you for hospital operations. These uses and disclosures are necessary to run the hospital and make sure that all of our patients receive quality care. For example, we may use medical information to review our treatment and services and to evaluate the performance of our staff in caring for you. We may also combine medical information about many hospital patients to decide what additional services St. Mary's Hospital should offer, what services are not needed, and whether certain new treatments are effective. We may also disclose information to doctors, nurses, technicians, medical students, and other hospital personnel for review and learning purposes. We may also combine medical information we have with medical information from other hospitals to compare how we are doing and see where we can make improvements in the care and services we offer. We may remove information that identifies you from this set of medical information so others may use it to study health care and health care delivery without learning who the specific patients are. Additionally, in certain areas in our hospital, we may ask you to sign-in so that we know that you have arrived and are waiting for your appointment or test. Our hospital personnel may call your name in the waiting room area to let you know that our staff is ready to see you.

Appointment Reminders. We may use and disclose medical information to contact you as a reminder that you have an appointment for treatment or medical care at the hospital.

Treatment Alternatives. We may use and disclose medical information to tell you about or recommend possible treatment options or alternatives that may be of interest to you.

Health-Related Benefits and Services. We may use and disclose medical information to tell you about health-related benefits or services that may be of interest to you.

Fundraising Activities. We may use medical information about you to contact you in an effort to raise money for the hospital and its operations. We may disclose medical information to a foundation related to the hospital so that the foundation may contact you in raising money for the hospital. We only would release contact information, such as your name, address and phone number and the dates you received treatment or services at the hospital. If you do not want the hospital to contact you for fundraising efforts, you must notify the Marketing and Development Department in writing.

Hospital Directory. We may include certain limited information about you in the hospital directory while you are a patient at the hospital. This information may include your name and location in the hospital. The directory information may also be released to people who ask for you by name.

Individuals Involved in Your Care or Payment for Your Care. We may release medical information about you to a friend or family member who is involved in your medical care. We may also give information to someone who helps pay for your care. We may also

tell your family or friends your condition and that you are in the hospital. In addition, we may disclose medical information about you to an entity assisting in a disaster relief effort so that your family can be notified about your condition, status and location.

Research. Under certain circumstances, we may use and disclose medical information about you for research purposes. For example, a research project may involve comparing the health and recovery of all patients who received one medication to those who received another, for the same condition. All research projects, however, are subject to a special approval process. This process evaluates a proposed research project and its use of medical information, trying to balance the research needs with patients' need for privacy of their medical information. Before we use or disclose medical information for research, the project will have been approved through this research approval process, but we may, however, disclose medical information about you to people preparing to conduct a research project, for example, to help them look for patients with specific medical needs, so long as the medical information they review does not leave the hospital. We will almost always ask for your specific permission if the researcher will have access to your name, address or other information that reveals who you are, or will be involved in your care at the hospital.

As Required By Law. We will disclose medical information about you when required to do so by federal, state or local law.

To Avert a Serious Threat to Health or Safety. We may use and disclose medical information about you when necessary to prevent a serious threat to your health and safety of the public or another person. Any disclosure, however, would only be to someone able to help prevent the threat.
